

COATBRIDGE COLLEGE NURSERY WINS GOLD!

Our College Nursery was awarded the Gold Health Promoting Nursery award after three years of hard work! The Nursery, which is the first College Nursery in North Lanarkshire to receive the sought after award, celebrated with the children, parents and College staff at a special Garden Party in May 2008.

The Nursery worked towards the gold award by focusing on teaching the children about Healthy Lifestyles. This has culminated in a 'Healthy Lifestyles Week' hosted each year where each day promotes a particular aspect of health, from physical exercise to healthy eating.
